

## Incentives and Accompanying Programs at EUREF-Campus

The EUREF-Campus in Berlin offers unique opportunities to experience the trends of future mobility, sustainability, start-up economies and virtual reality through exciting incentives and accompanying programs. Discover the campus through our different types of experiences, which can be combined individually to suit any event.

Our experiences:

- **Campus discovery tour** Our campus tour introduces you to the vision of the campus, its history of development and various local institutions, companies and projects.
- **Test drive electric vehicles** Experience the future of mobility up close – with a test drive on an electric scooter, electric hoverboard, pedelec or Segway!
- **Innovation safari** This innovation safari combines a campus tour with visits to start-ups, companies, showrooms and expert talks.
- **Food savior** Learn more about the exciting story of Berlin's most famous food savior start-up during a tasting of rescued groceries.
- **Algae tasting** Try the "Green Gold" or the "Green Miracle Weapon" in a delicious algae product and learn about the microalgae cultivated on campus.
- **Gasometer-climbing** Climb the 420 steps of the 78m high Gasometer and enjoy the breathtaking view over Berlin.
- **Train station of the future** Take electric vehicles to the nearby train station and get to know the innovative mobility and energy solutions of the station.
- **Virtual reality experience** Dive into the virtual world of VR start-ups on campus and get to know their interactive technologies at first hand.
- **Energy live tour** Visit Germany's first and only walk-in energy center during active operation and get to know the most modern technologies in an easily understandable way.

Your guests are interested in the trends of the future from a more technical point of view? We are happy to arrange speakers or organize company visits with campus-based experts.
